

# Make Payments Easier for Your Customers with Predefined Amount QR Codes

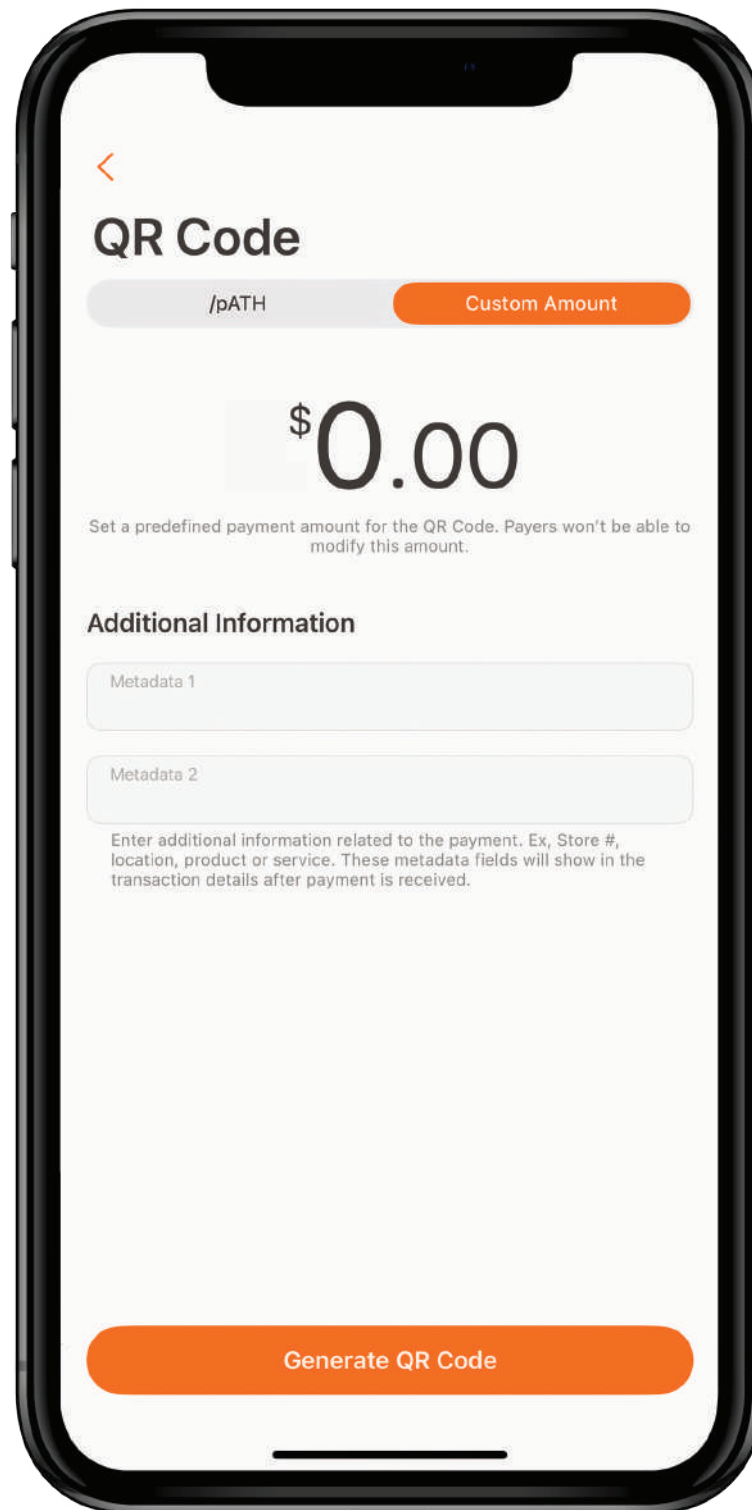

Did you know you can create QR codes with predefined amounts to streamline your customers' payments? They're perfect for specific products, services, events, and more.

**Just follow these steps!**

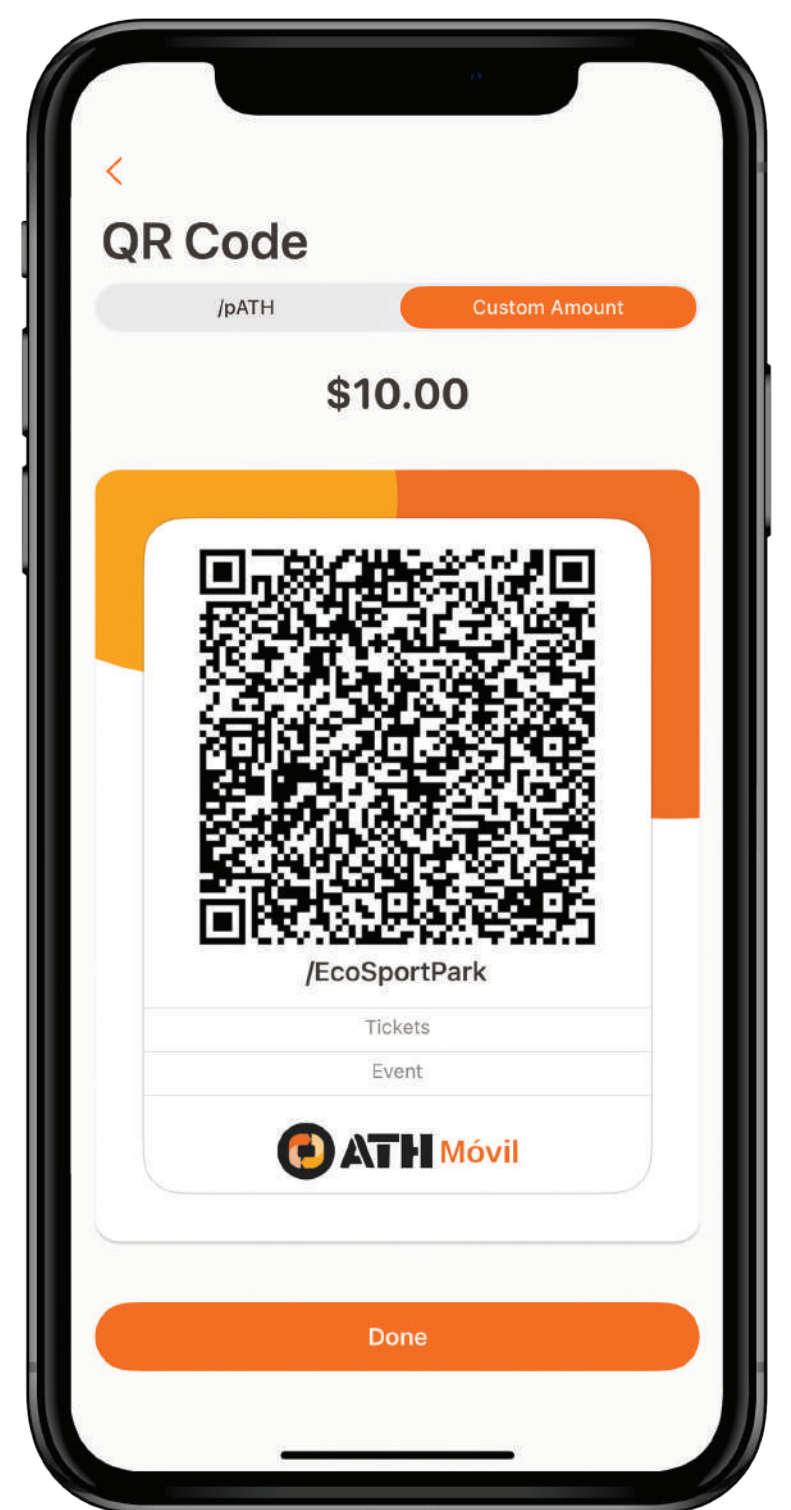

## Step 1

Go to "Show QR Code" and select "Predefined Amount".

## Step 2

Enter the amount and details of what you want to charge, then press "Generate QR Code".

## Step 3

Show or send the QR code to your customer to process the payment—it's that simple!
